

## Generic Triggers

}}	{{ }}
%%	{% %}
##	{# #}
do	{% do ... %}
extends	{% extends 'template' %}
from	{% from 'template' import 'macro' %}
import	{% import 'template' as name %}
importself	{% import _self as name %}
inc, include	{% include 'template' %}
incp	{% include 'template' with params %}
inckv	{% include 'template' with { key: value } %}
use	{% use 'template' %}
autoescape	{% autoescape 'type' %}...{% endautoescape %}
block, blockb	{% block name %} ... {% endblock %}
blockf	{{ block('...') }}
embed	{% embed "template" %}...{% endembed %}
filter, filter	{% filter name %} ... {% endfilter %}
macro	{% macro name(params) %}...{% endmacro %}
set, setb	{% set var = value %}
spaceless	{% spaceless %}...{% endspaceless %}
verbatim	{% verbatim %}...{% endverbatim %}
if, ifb	{% if condition %} ... {% endif %}
ife	{% if condition %} ... {% else %} ... {% endif %}
for	{% for item in seq %} ... {% endfor %}

fore	{% for item in seq %} ... {% else %} ... {% endfor %}
else	{% else %}
endif	{% endif %}
endfor	{% endfor %}
endset	{% endset %}
endblock	{% endblock %}
endfilter	{% endfilter %}
endautoescape	{% endautoescape %}
endembed	{% endembed %}
endfilter	{% endfilter %}
endmacro	{% endmacro %}
endspaceless	{% endspaceless %}
endverbatim	{% endverbatim %}

## Craft Triggers

Asset	craft.assets.first()
assets, assetso	craft.assets loop
categories, categorieso	craft.categories loop
entries, entrieso	craft.entries loop
feed	craft.feeds.getFeedItems loop
t	t
replace	replace('search', 'replace')
replacex	replace('/(search)/i', 'replace')
split	split('\n')
tags, tagso	craft.tags loop
users, userso	craft.users loop
cache	{% cache %}...{% endcache %}
children	{% children %}
exit	{% exit 404 %}
ifchildren	{% ifchildren %}...{% endifchildren %}
includecss	{% includecss %}...{% endincludecss %}
includecssfile	{% includeCssFile "/resources/css/global.css" %}
includehirescss	{% includehirescss %}...{% endincludehirescss %}
includejs	{% includejs %}...{% endincludejs %}
includejsfile	{% includeJsFile "/resources/js/global.js" %}
matrix, matrixif	Basic Matrix field loop using if statements
matrixifelse	Basic Matrix field loop using if/elseif

<b>matrixswitch</b>	Basic Matrix field loop using switch
<b>nav</b>	{% nav item in items %}...{% endnav %}
<b>paginate</b>	Outputs example of pagination and prev/next links
<b>redirect</b>	{% redirect 'login' %}
<b>requirelogin</b>	{% requireLogin %}
<b>requirepermission</b>	{% requirePermission "spendTheNight" %}
<b>switch</b>	{% switch variable %}...{% endswitch %}
<b>csrf</b>	{{ getCsrInput() }}
<b>getfoothtml</b>	{{ getFootHtml() }}
<b>getheadhtml</b>	{{ getHeadHtml() }}
<b>getparam</b>	craft.request.getParam()
<b>getpost</b>	craft.request.getPost()
<b>getQuery</b>	craft.request.getQuery()
<b>getsegment</b>	craft.request.getSegment()
<b>case</b>	{% case "value" %}
<b>endcache</b>	{% endcache %}
<b>endifchildren</b>	{% endifchildren %}
<b>endincludecss</b>	{% endincludecss %}
<b>endincludehirescss</b>	{% endincludehirescss %}
<b>endincludejs</b>	{% endincludejs %}
<b>endnav</b>	{% endnav %}
<b>ceil</b>	ceil()
<b>floor</b>	floor()
<b>max</b>	max()
<b>min</b>	min()
<b>round</b>	round()
<b>shuffle</b>	shuffle()
<b>random</b>	random()
<b>url, urla</b>	url('path'), url('path', params, 'http', false)
<b>rss</b>	Example rss feed
<b>dd</b>	<pre>{{ dump() }}</pre>{% exit %}
<b>dump</b>	<pre>{{ dump() }}</pre>

	password form
<b>formsetpassword</b>	Example set password form
<b>formsearch</b>	Example search form
<b>formsearchresults</b>	Example search form results

## Reference Hints

<b>Info</b>	All craft.assets properties and template tags
<b>Info</b>	All craft.categories properties and template tags
<b>Info</b>	All craft.config properties and template tags
<b>Info</b>	All craft.entries properties and template tags
<b>Info</b>	All craft.feeds properties and template tags
<b>Info</b>	All craft.fields properties and template tags
<b>Info</b>	All craft.globals properties and template tags
<b>Info</b>	All craft.request properties and template tags
<b>Info</b>	All craft.sections properties and template tags
<b>Info</b>	All craft.session properties and template tags
<b>Info</b>	All craft.tags properties and template tags
<b>Info</b>	All craft.users properties and template tags
<b>Info</b>	All craft globals (site info, date, users, template tags)

## Example Forms

<b>formlogin</b>	Example login form
<b>formuserprofile</b>	Example user profile form
<b>formuserregistration</b>	Example user registration form
<b>formforgotpassword</b>	Example forgot
